

# Scorekeeping Instructions

Parents keep score and time for their team at both home and away games. When in doubt ask the coach or referee. (Instructions also appear on scorepad)

## **Player's Name:**

An adhesive list of players' names and numbers will be provided in triplicate for each game, corresponding to the format of the score pad. There are three pages: White for League, Yellow for Home, and Pink for Away.

## **Periods:**

These boxes are used to list the goals for each player.

## **Assists:**

Any direct pass by a player to a teammate that results in a direct shot and score in the goal is considered an assist. There can only be one assist per goal. Record with a strike next to the player's name in the Assist Column.

## **Penalties:**

This section requires the following information be recorded by player's name: Period of the Offense, Type of Offense, and Minutes of Penalty to Serve.

## **Total Saves:**

A save is recorded any time a ball is stopped or deflected by the goalie, thereby preventing a shot that would have resulted in a goal.

## **Timeouts:**

Each team has 2 timeouts per half and one per OT period. Record the game time when a timeout is called.

## **Data Entry:**

Fill in Date, Location and Team Names. Record game time for goals scored and called penalties and timeouts. Referees and Coaches must sign score sheet to validate game scores and statistics.
